REVERENT VERSION OF SIMON SAYS - "When the children are getting noisy and your finding yourself trying to talk over the top of them. I quietly start giving instructions such as... If you can hear me touch your nose. If you can hear me blink your eyes. If you can hear me wiggle your fingers. Pretty soon the children are intent on what your saying and trying to follow directions. You can end with... If you can hear me fold your arms. " LORRI, ENUMCLAW, WASHINGTON
