REQUEST REPLY/LAST MINUTE BAPTISMS - "I am responding to the issue of the rush for preparation of the baptism program that the ward and stake go through for baptisms when parents notify people at the last minute that they want their child baptized. Our ward makes the parents responsible for the baptism program. The parents notify the bishopric and schedule the service with them, arrange for speakers, chorister, pianist, special musical numbers, etc. As primary president, I have always offered to assist in any way -- typing up a program, playing piano for the service, etc. But the parents are responsible. I would think having the stake or ward do the program would make it much less personal to the child than the family working together to bring this special program together for their own family member. " MARIE, TEXAS
