TEACHER APPRECIATION - "When one of the counselors moved and left our primary, we got a plain white t-shirt and some colored fabric pen's and went to each class and had them trace one of their hands on the T-shirt and write their name inside. For the kids that were not present that day, we took a hand print cookie cutter and traced around that and wrote their names inside. The kids loved doing it and the counselor just loved it." TAMMY NICKEL, EDMONDS, WASHINGTON
