

LETTER TO HOME

Written by Publisher

"We have been sending letters home to the parents complimenting a specific behavior or characteristic of their child. As a primary presidency, we watch the children every Sunday for ideas of letters we can write to parents. We always make sure the letters are sincere and the compliment unique to that particular child. Each member of the presidency takes a turn writing and sending a letter. We keep a list of who has received a letter. We have noticed a change for the better and excitement in each child we have complimented. They seem to enjoy their parents hearing how wonderful they are too!"
