

"BACK TO PRIMARY DAY"

Written by Publisher

We held this during our regularly scheduled primary. Parents were invited to come with their children for the whole Sunday services. We sent out invitations to all primary children. The day was not difficult to organize. We did need to set up extra chairs for the parents. The result of this day was that we have had about 3 different families come out to church who haven't been out for a while. Other ward members enjoyed the day and have commented how they enjoyed going to Primary with their children. Some families with multiple children had to team up to go to each child's class. But we also suggested that they can come to primary any time they want. The Sacrament Program that Sunday was geared towards how primary has influenced my life. They had a couple of youth speakers and our Primary President also spoke on that theme. The end result was a very enjoyable day."
