

VALENTINE DAY SERVICE

Written by Publisher

VALENTINE DAY SERVICE - "Our activity day fell on valentines day this year and we took this opportunity to do a service project. This activity day involves 4 stations. 1) bags, 2)Valentine cards, 3) sugar cookie decorations, 4) mouse suckers. The children went to each of these stations. They decorated valentine bags, made cards and a mouse sucker, then decorated sugar cookies. After everything was made there were several games and lunch. While lunch was being served we talked about loving one another and how it is important for us to show love to recent converts and let them know that we care for them. After the lunch our 8-11 year old girls along with three leaders filled the bags with the cookies and other goodies and delivered them to our recent converts, shut ins, and the elderly in our ward. In all 22 bags were delivered. It was a great success and a fabulous missionary tool. We will definitely do it again next year."
